

Rider Tools

Whatever the reason for your trip, Advance Transit (AT) offers easy-to-use tools to help you get to your destination.

www.advancetransit.com

Transit Mobile App

Transit is a mobile app that provides real-time information for public transportation options at your location.

Find out when your bus will arrive at your stop or get step-by-step directions to your destination.

Download the Transit app to your device (www.advancetransit.com/rider-apps) to access transit information, including routes, schedules, bus frequency, and transfer points.

Printed Schedule

Printed bus schedules are available in buses and at the AT operations center.

The schedule shows the departure times for major stops on the route. If your bus stop is not one of the major stops listed in the schedule, note the departure time for the major stop prior to your stop location. This will help provide an estimate of when the bus will arrive at your stop.

Call or Text for Bus Information

Check on the status of your bus with a quick phone call or text.

Call or text 802-255-8803. Enter the stop number listed on your bus stop sign in your call or text to learn about route details and the arrival time of buses stopping at your location.

Advance Transit Website

Advance Transit's website offers a trip planning feature on the home page (www.advancetransit.com).

Enter your starting point, destination, and the time you want to depart or arrive. The results will show the relevant bus routes, transfers, and projected time of travel.

Service Alerts

Stay up to date on service changes.

Visit the AT website, sign up for email alerts, or follow AT on social media.
